Suppliers List Cosmetics United Kingdom, Ireland

Supplier	Description
	Amino acids and amino acid derivatives Mild surfactants and effective active substances for skin and hair care (acylglutamate Na-PCA, Zn-PCA, lauroyl lysine, phytosteryl compounds, emollients and free amino acids).
	Fresh plant extracts High quality fresh plant and herb extracts. Fresh plant philosophy ensures that key active ingredients are maintained in the finished product.
	Biomimetic skin care Bimiol BSC® is a lamellar system which is modelled on human skin. This biomimetic skin care system is the ideal base for dermatological products to repair, rehydrate and regenerate dry, itchy and atopic skin.
	Encapsulation, transport systems and active substances Liposystem Complex for optimised availability and Cyclosystem Complex for delayed active agent release, enzymes as active substances and a range of active ingredient concepts for specific applications.
	Vegetable specialities Highly purified molecular distilled vegetable oil derived concentrates and active ingredients, protective lupin peptides and natural lipids from the Amazonian region.

Suppliers List Cosmetics United Kingdom, Ireland

Supplier	Description
	Coloured pellets High visible soft beads loaded with active ingredients (e.g. vitamins, aloe vera, etc.). Available in different colours and sizes.
	Proven active agent concepts Selected active ingredient concepts based on plant materials; well documented with scientifically proven efficacy and effectiveness.
	Sugar-based emulsifiers Vegetable emulsifiers with an HLB of 1-15, extremely mild and versatile for modern cosmetic products.
	Aloe Vera High quality Aloe Vera products (liquids, gels and powder concentrates) and Aloe Vera Oil extracts for effective skin care.
	Emulrey Wipe Conc. A tenfold concentrated oil in water emulsion that is PEG-free. It is easy to dilute in water, resulting in a low viscous fluid ideal for the production of premium wet wipe products which have the added benefit of being gentle and caring to the skin.
