Supplier	Description
	Fresh plant extracts High quality fresh plant and herb extracts. Fresh plant philosophy ensures that key active ingredients are maintained in the finished product.
	Encapsulation, transport systems and active substances * Liposystem Complex for optimised availability and Cyclosystem Complex for delayed active agent release, enzymes as active substances and a range of active ingredient concepts for specific applications.
	Proven active agent concepts * Selected active ingredient concepts based on plant materials; well documented with scientifically proven efficacy and effectiveness.
	Emulrey Wipe Conc. A tenfold concentrated oil in water emulsion that is PEG-free. It is easy to dilute in water, resulting in a low viscous fluid ideal for the production of premium wet wipe products which have the added benefit of being gentle and caring to the skin.

* I.R.A. and RAHN are represented by our sales agent Kinetik Technologies
