

Usmate Velate, May 29th, 2024

TO WHOM IT MAY CONCERN STATEMENT

Dear Valued Customer,

As part of our continuous efforts to improve the quality of our products, we at I.R.A. Istituto Ricerche Applicate S.p.A., Viale delle Industrie n. 8, 20865 Usmate Velate (MB) – Italy, are pleased to inform you of a recent improvement in our production process for the product code CC Glycolic Acid 50% (9299B).

We have implemented an additional filtration step using a 45 mesh filter. This improvement is designed to ensure an even higher standard of purity and quality for our product.

Please note that this amendment does not involve any changes to other production parameters, production sites or the overall quality and efficacy of the product. The specifications and performance of CC Glycolic Acid 50% (9299B) remain unchanged.

This change is effective immediately and all future orders will be processed with this improved filtration step.

Scientific Director

Dr. U. Cifernesi

I.R.A. Istituto Ricerche Applicate S.p.A.
