Dear Valued Customer:

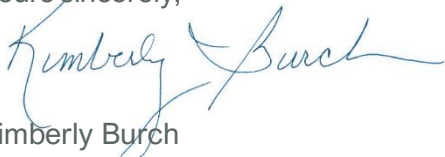

We have completed a comprehensive analysis of the specifications for Thixcin® R PC. Upon review, it was determined that the specification range Thixcin® R PC should include a parameter for IR identity. All material produced after June 15, 2025 will conform to the new specifications as follows:

	Current specification	New specification
Appearance	White to light yellow powder	White to light yellow powder
Infrared		PASS
Acid Value	Max 3.0	Max 3.0
Heavy Metals	Max 0.001	Max 0.001
Iodine Value	Max 5.0	Max 5.0
+325 Mesh Residue, %	Max 1.0%	Max 1.0%
Saponification Value	176.0 – 182.0	176.0 – 182.0
Melting Point	85.0 – 88.0 °C	85.0 – 88.0 °C

This change has been made provide a more accurate description of Thixcin® R PC. Please note no changes have been made in the raw material or manufacturing process.

Elementis Specialties is committed to providing products of the highest quality standards. Please contact us should you have any further questions. Thank you.

Yours sincerely,
