Supplier	Description
<p>Eat Well, Live Well.</p>  <p>AJINOMOTO</p>	<p>Amino acids and amino acid derivatives Mild surfactants and effective active substances for skin and hair care (acylglutamate Na-PCA, Zn-PCA, lauroyl lysine, phytosteryl compounds, and emollients).</p>
	<p>Biomimetic skin care Bimiol BSC® is a lamellar system which is modelled on human skin. This biomimetic skin care system is the ideal base for dermatological products to repair, rehydrate and regenerate dry, itchy and atopic skin.</p>
 <p>A COMPANY OF THE BDI GROUP</p>	<p>Natural Antioxidant ASTACOS® OL50 is a standardized oil mixture of astaxanthin-rich oleoresin obtained by CO₂ extraction from the microalga Haematococcus pluvialis. Astaxanthin is the strongest naturally occurring antioxidant and is considered the „diamond“ among the radical scavengers. This carotenoid is used as an active ingredient for anti-aging, anti-inflammatory and UV protection purposes.</p>
 <p>A global specialty chemicals company</p>	<p>Rheological and naturally biofunctional ingredients Elementis, a globally recognized expert in rheological technology and a leading provider of antiperspirant ingredients, offers a portfolio featuring sustainable solutions such as HYDROCLAY™ and Bentone®. These products are crafted from natural clay and biofunctional ingredients, showcasing Elementis' dedication to innovation and environmentally friendly solutions.</p>
	<p>Encapsulation, transport systems and active substances Cyclosystem Complex for delayed active agent release, enzymes as active substances and a range of active ingredient concepts for specific applications.</p>

Supplier	Description
 <p>LABORATOIRES ERIGER Disruptive Vectorization®</p>	<p>Vectorization technology The PhytoVec® Technology of Laboratoires ERIGER based on Phytol (part of the Chlorophyll) was designed to vectorize fragile, unstable, or destabilizing molecules for galenic, at high concentration. As a consequence, it enables the use of such molecules in galenic formulations or it significantly improves its stability.</p>
 <p>Daily health</p>	<p>Functional ingredients Gamma-Oligo and Gamma-MAX are cosmetic active ingredients based on Gamma-Polyglutamic Acid. They show outstanding moisturizing effects, inhibit Hyaluronidase activity and improve skin elasticity. As such, this makes them very interesting for Anti-Ageing and Moisturizing applications.</p>
 <p>cosmospheres®</p>	<p>Coloured pellets High visible soft beads loaded with active ingredients (e.g. vitamins, aloe vera, etc.). Available in different colours and sizes.</p>
<p>RAHN COSMETIC ACTIVES</p>	<p>Unveiling the secrets of beauty High-tech cosmetic actives engineered with knowledge, inventiveness, Swiss perfection and a spark of magic.</p>
 <p>SISTERNA®</p>	<p>Sugar-based emulsifiers Vegetable emulsifiers with an HLB of 1-15, extremely mild and versatile for modern cosmetic products.</p>
<p>Only for the UK</p> 	<p>Pure ingredients Scientifically and clinically proven pure ingredients to target pigmentation control, problem skin, skin protection, aging skin, skin hydration and barrier homeostasis.</p>
	<p>Aloe Vera High quality Aloe Vera products (liquids, gels and powder concentrates) and Aloe Vera Oil extracts for effective skin care.</p>
