

WHO IS NEW?

JULIO LAMBERTY

Julio Lamberty joined RAHN USA Corp. in May 2019 as Head of Sales Cosmetics. He has a Biochemistry degree from Saint Peter's University in the USA.

Working over 29 years in the cosmetics industry, Julio gained great experience in the fields of R&D, sales and business development. He will leverage his entrepreneurial spirit to lead the expansion in the USA and drive revenue growth.

ABOUT RAHN

RAHN-Group specialising in market-orientated cosmetic active substances since 1999

RAHN AG is a financially independent Swiss family company with three business areas, Cosmetics, Scent & Taste and Energy-Curing. RAHN AG has been a key player in the international marketplace since 75 years and has more recently grown into an internationally acclaimed expert in the development and sale of speciality chemicals.

In 1999 RAHN launched its own cleverly devised RAHN-Cosmetic Actives for use in a variety of applications.

RAHN-Cosmetic Actives – a holistic platform satisfying individual customer requirements

We at RAHN speak the language of cosmetic science and strive to generate new inspiration for our customers. This message is reflected in RAHN-Cosmetic Actives where we recognise and harness the potential of nature, whilst combining it with modern technology to generate market-orientated, tried and tested active concepts. Constantly at the cutting edge of skin biology, we transform our scientifically proven systems into cosmetic statements. With its extensive platform, RAHN-Cosmetic Actives is capable of meeting a wide range of customer requirements be it in terms of marketing, science, product development or product safety.

Uncomplicated customer service – second nature to us!

Our customers are at the very heart of our business and we recognise the importance of responding swiftly to customer requests to offer workable solutions. The documentation for RAHN-Cosmetic Actives is comprehensive and practical. Our customers are delighted to use the intelligent trade names on their cosmetic packaging to further enhance pack claims. We are also equipped to deal with formulation problems in our technical applications laboratory as well as providing a wide range of tailor-made, state-of-the-art formulations.
