DEFENSIL®-SOFT wins Bronze!

ZURICH, NOVEMBER 5, 2017: DEFENSIL®-SOFT, RAHN’S NEURO-BALM FROM A TO ZEN, WINS BEST INGREDIENT AWARD IN BRONZE AT IN-COSMETICS ASIA 2017

The price acknowledges new products or technologies introduced in the market field of cosmetic active or functional raw materials.

RAHN’s DEFENSIL®-SOFT is an extract from the mushroom *Albatrellus ovinus*, which blocks the pain receptor TRPV1. TRPV1 is expressed in the epidermis’ sensory neurons and keratinocytes and it regulates the skin’s comfort zone: Elevated levels of TRPV1 may lead to increased skin sensitivity and unpleasant sensations caused by e.g. sunburn or chemical peelings. On the other hand, heat stress, particularly caused by IR-light, can activate TRPV1, which, in turn, induces typical ageing processes such as enhanced collagen degradation. This modern form of pre-mature skin ageing caused by heat stress is also known as “thermal ageing”.

By inhibiting TRPV1, the neuro-balm DEFENSIL®-SOFT provides zen-like soothing and anti-ageing effects:

- Reduces skin discomfort and irritation within minutes
- Increases the heat-pain tolerance of normal and ultra-sensitive skin
- Prevents IR-ageing by protecting from IR-induced heat stress
- Improves skin’s tolerance towards irritants in cosmetic formulations
